

Tom Berg

Tom Berg is Team Lead for Policy & Sustainability at SkyNRG, a leader in the Sustainable Aviation Fuel (SAF) industry. In this role, Tom is responsible for shaping and implementing SkyNRG's ambitious sustainability principles into its SAF supply chains, which means working closely together with SkyNRG's independent Sustainability Board, comprised of NGOs and academia, which guides SkyNRG on key sustainability topics. On policy, Tom heads SkyNRG's public affairs work at the EU level and works with relevant working groups and policymakers to advance SAF policy. Tom is also the lead author of SkyNRG's SAF Market Outlook, a reference publication describing the state and trends of the SAF market.

Tom earned his MSc in Sustainable Development at Utrecht University in the Netherlands and his BSc in Earth Sciences and Economics at VU Amsterdam. Before joining SkyNRG, Tom worked as a management consultant at Guidehouse advising corporates and the public sector on decarbonization strategies and energy and climate policy.
